## REMARKS

Applicant thanks the Examiner for indicating that claims 4 and 9-15 would be allowable if rewritten in independent form. In accordance with the Examiner's suggestion, Applicant converted claims 4 and 9 to independent form and amended the remaining claims, namely 2, 5-7 and 10-15, such that they depend from claim 9.

Claims 2, 4-7, and 9-15 remain in the application. Claims 1, 3, and 8 have been cancelled without prejudice. No new matter has been added.

The specification stands objected to because the title is not descriptive. Applicants have substituted the original title for a more descriptive one. Accordingly, Applicant respectfully requests the withdrawal of the specification objection.

Claims 2-3 stand objected to for informalities. The informalities have been corrected in claims 2 and 4, which incorporates the language of claim 3. Support for the claim amendment to claim 2 can be found on page 5, lines 14-17 of the originally filed patent application. Applicant respectfully requests the withdrawal of the claim objections.

Claims 1, 3, 5, and 8 stand rejected pursuant to 35 U.S.C. §102(e) as being anticipated by U.S. Publication No. 2003/0203508 to Yates et al. ("Yates"). Claims 6-7 stand rejected pursuant to 35 U.S.C. §103(a) as being unpatentable over Yates in view of that known to a person of ordinary skill in the requisite art. Claims 1, 3 and 8 have been cancelled. Claims 5-7 now depend from claim 9, which the Examiner indicated contains allowable subject matter. Applicant respectfully requests the withdrawal of the claim rejections.

For the foregoing reasons, it is respectfully submitted that the present application is in condition for allowance.

Reconsideration and allowance of claims 2, 4-7 and 9-15 is respectfully requested.

Respectfully Submitted,

Markus Schmidt
